% complete by subject and stream

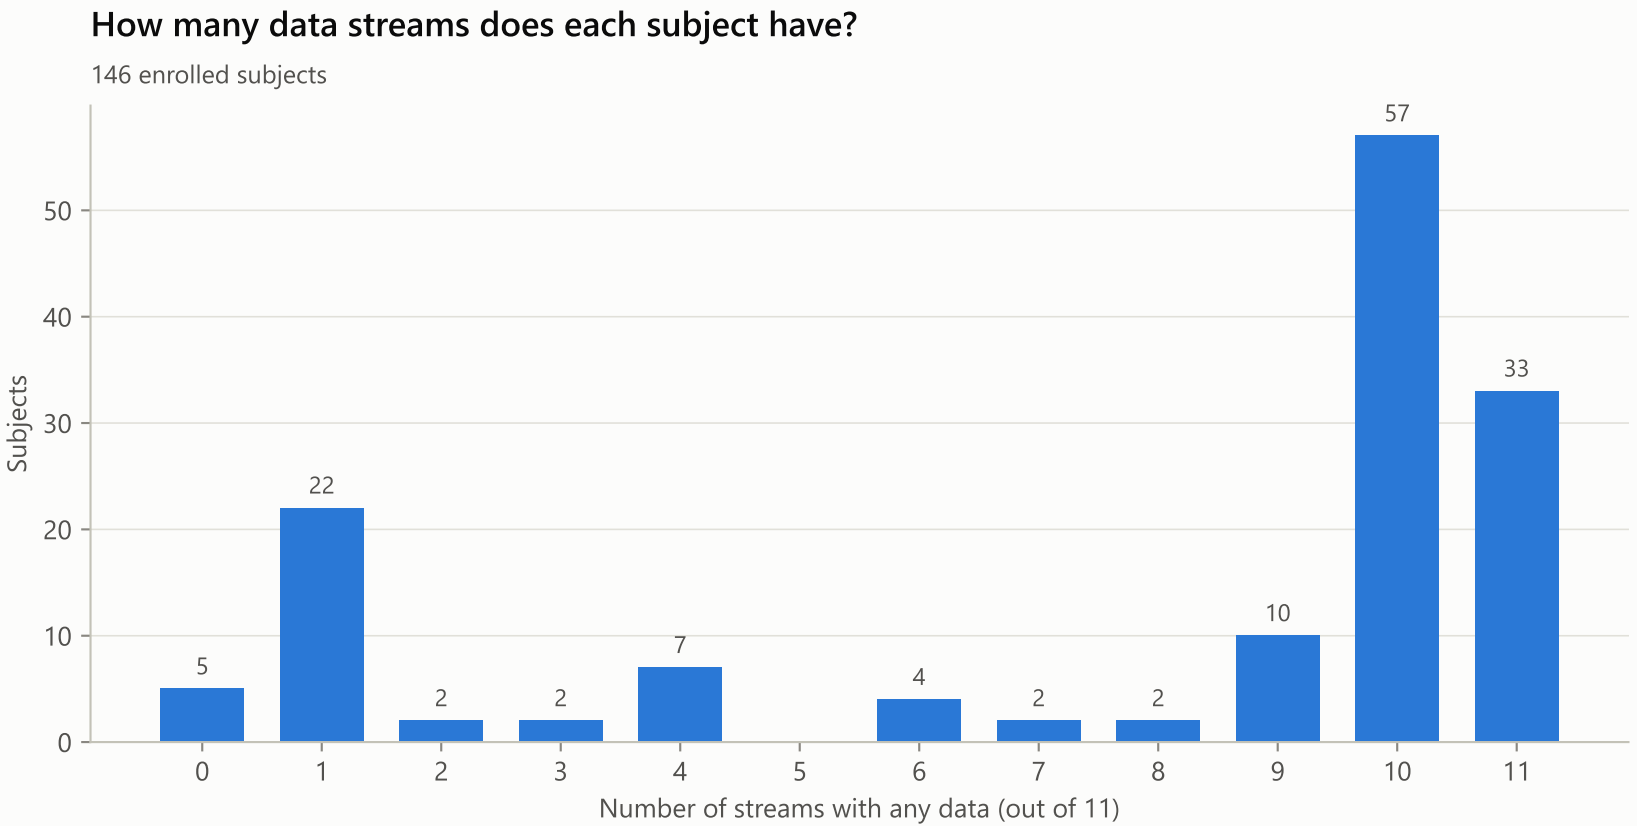

Gray = no data in that stream. Sorted by number of streams, then completeness.

How complete is each subject's data?

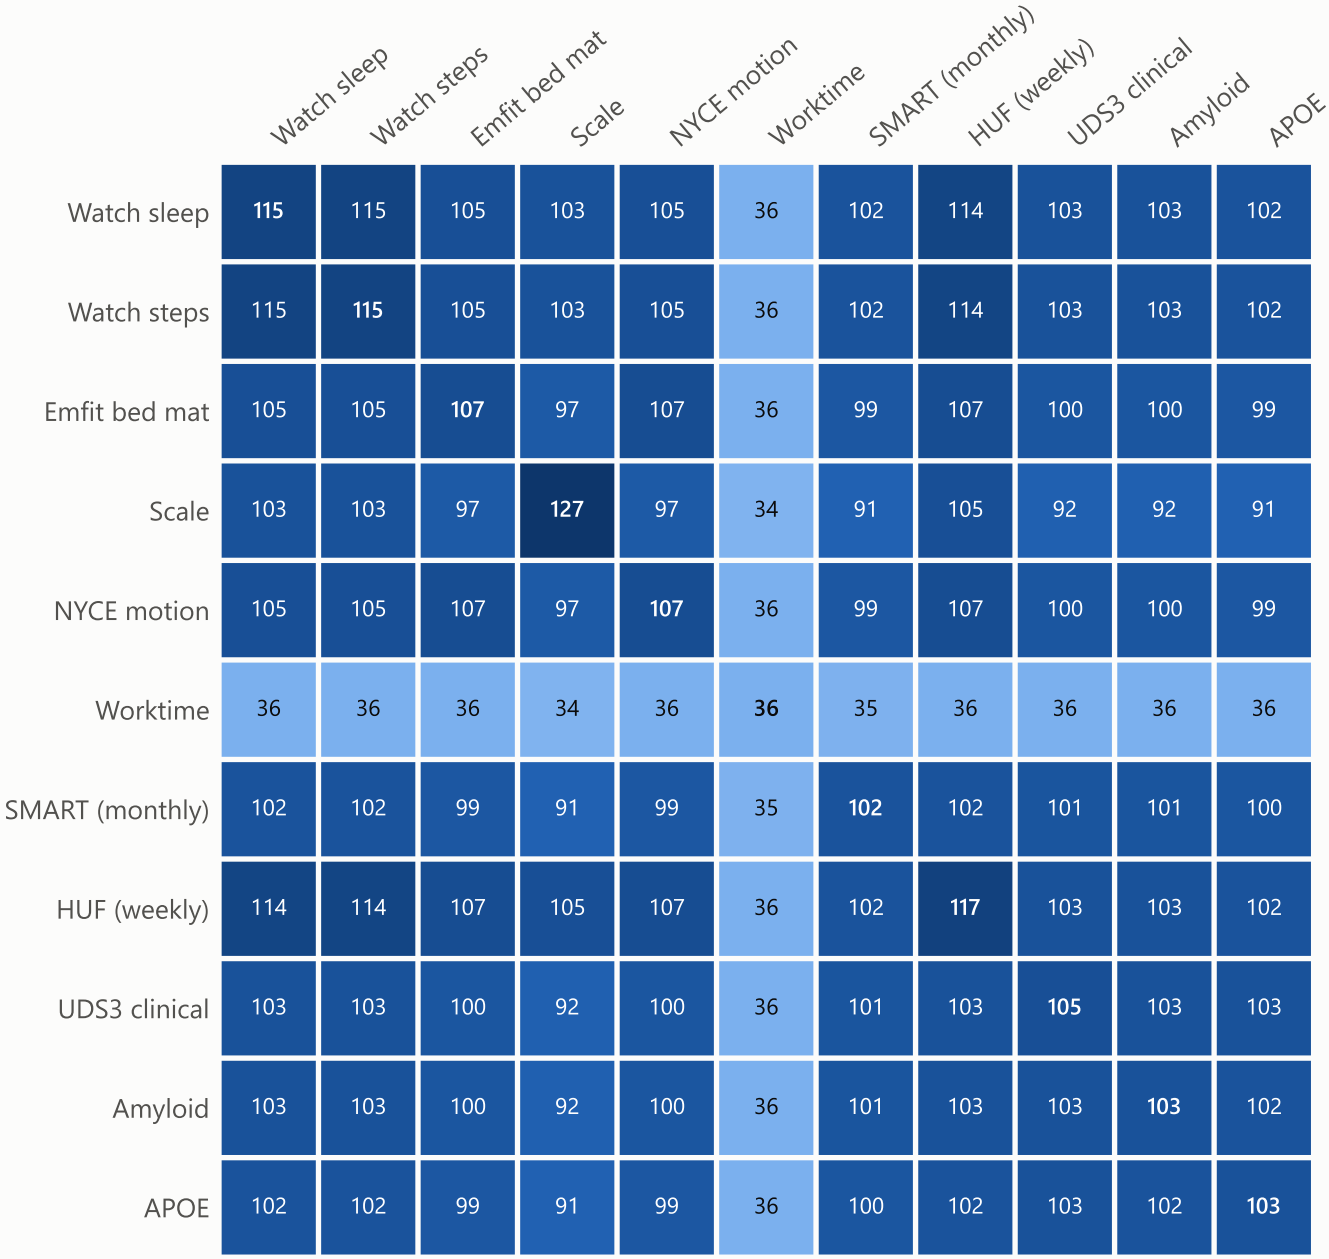

Each dot is one subject. Black bar = middle 50% of subjects, tick = median.

How many data streams does each subject have?
146 enrolled subjects

Number of streams with any data (out of 11)

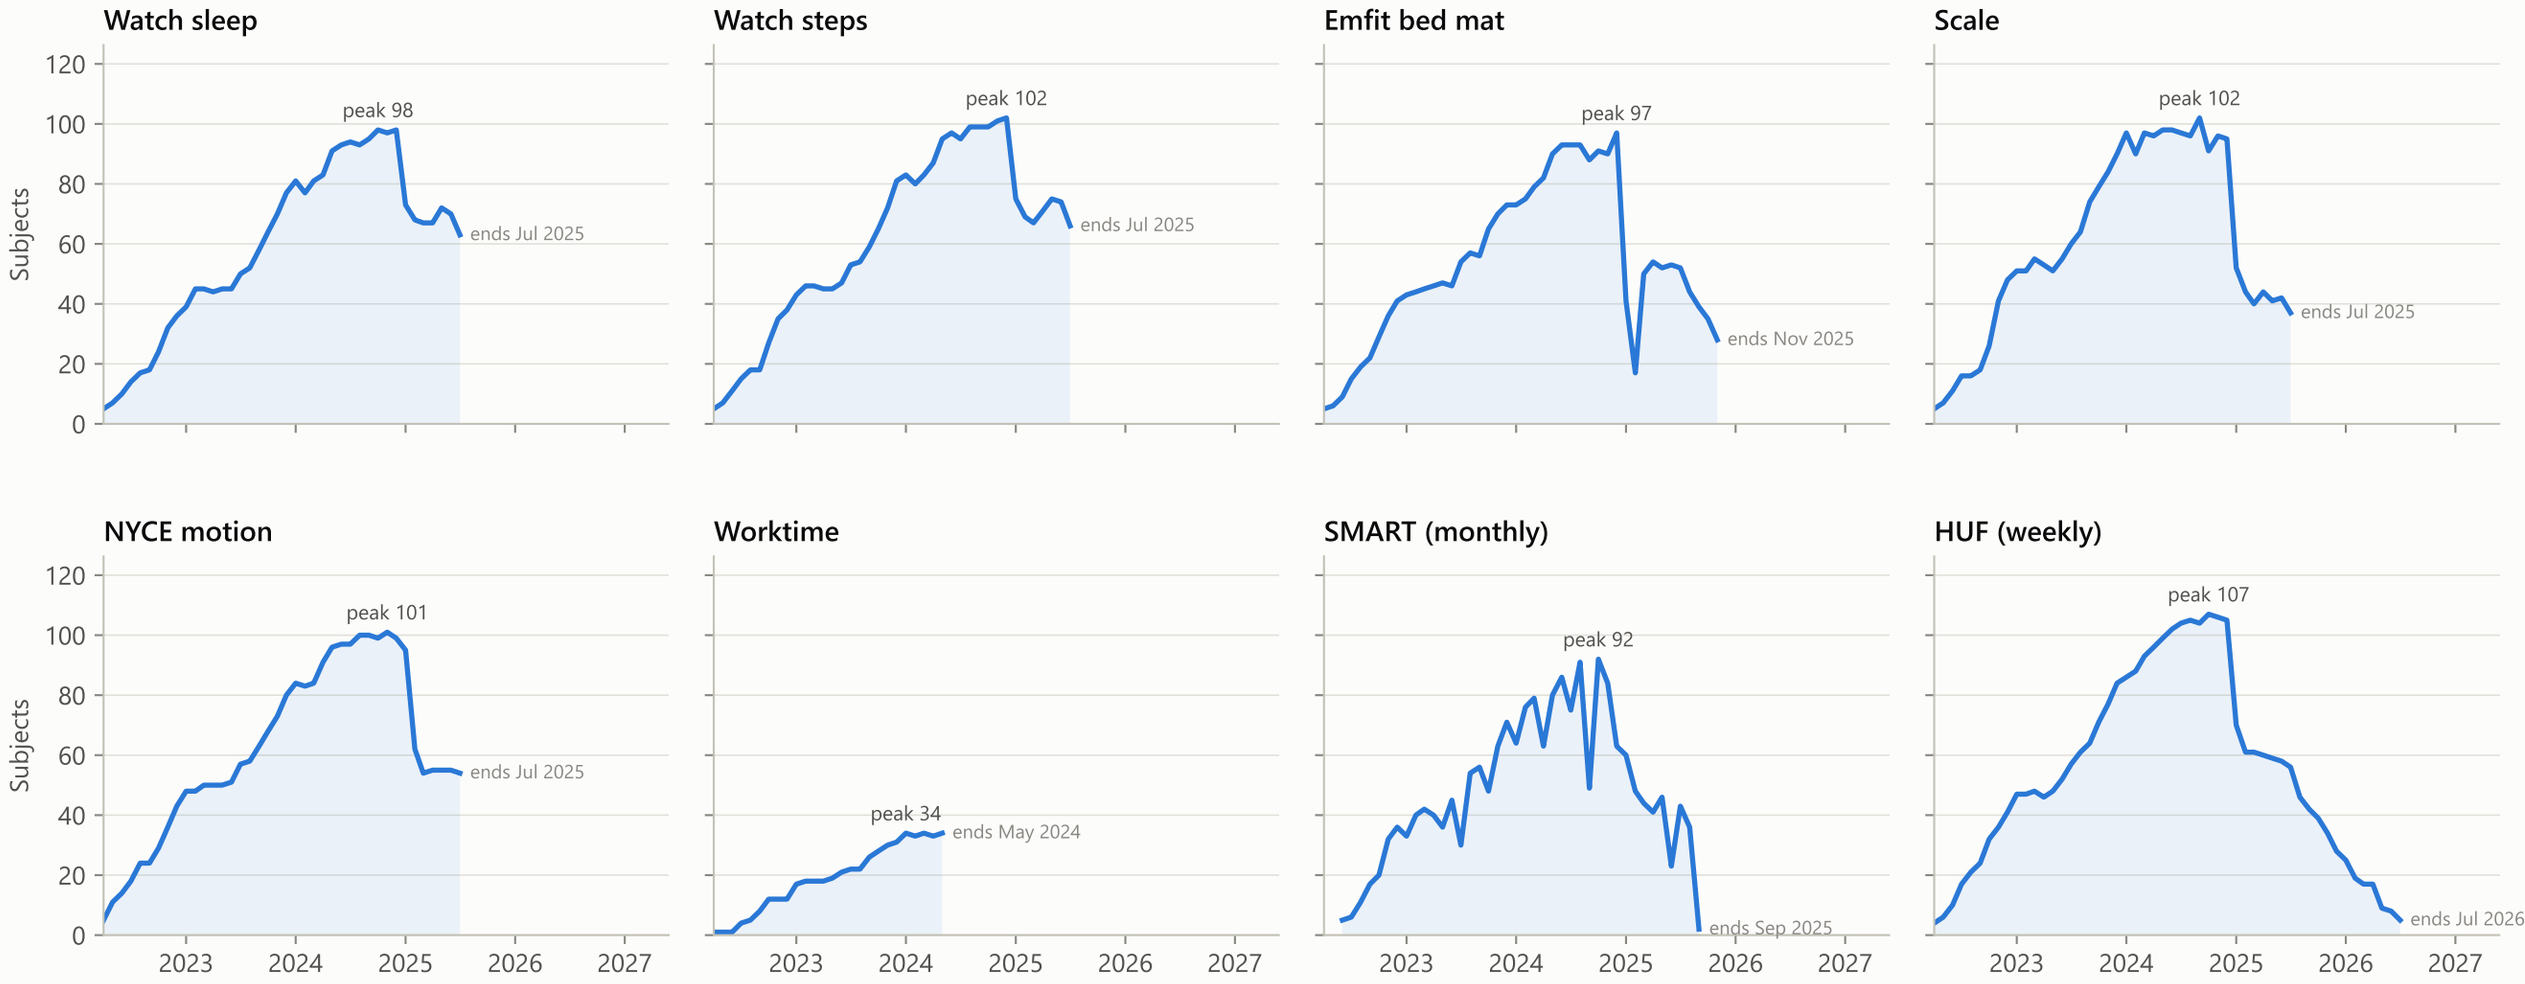

Subjects with both streams

Diagonal = subjects with that stream at all

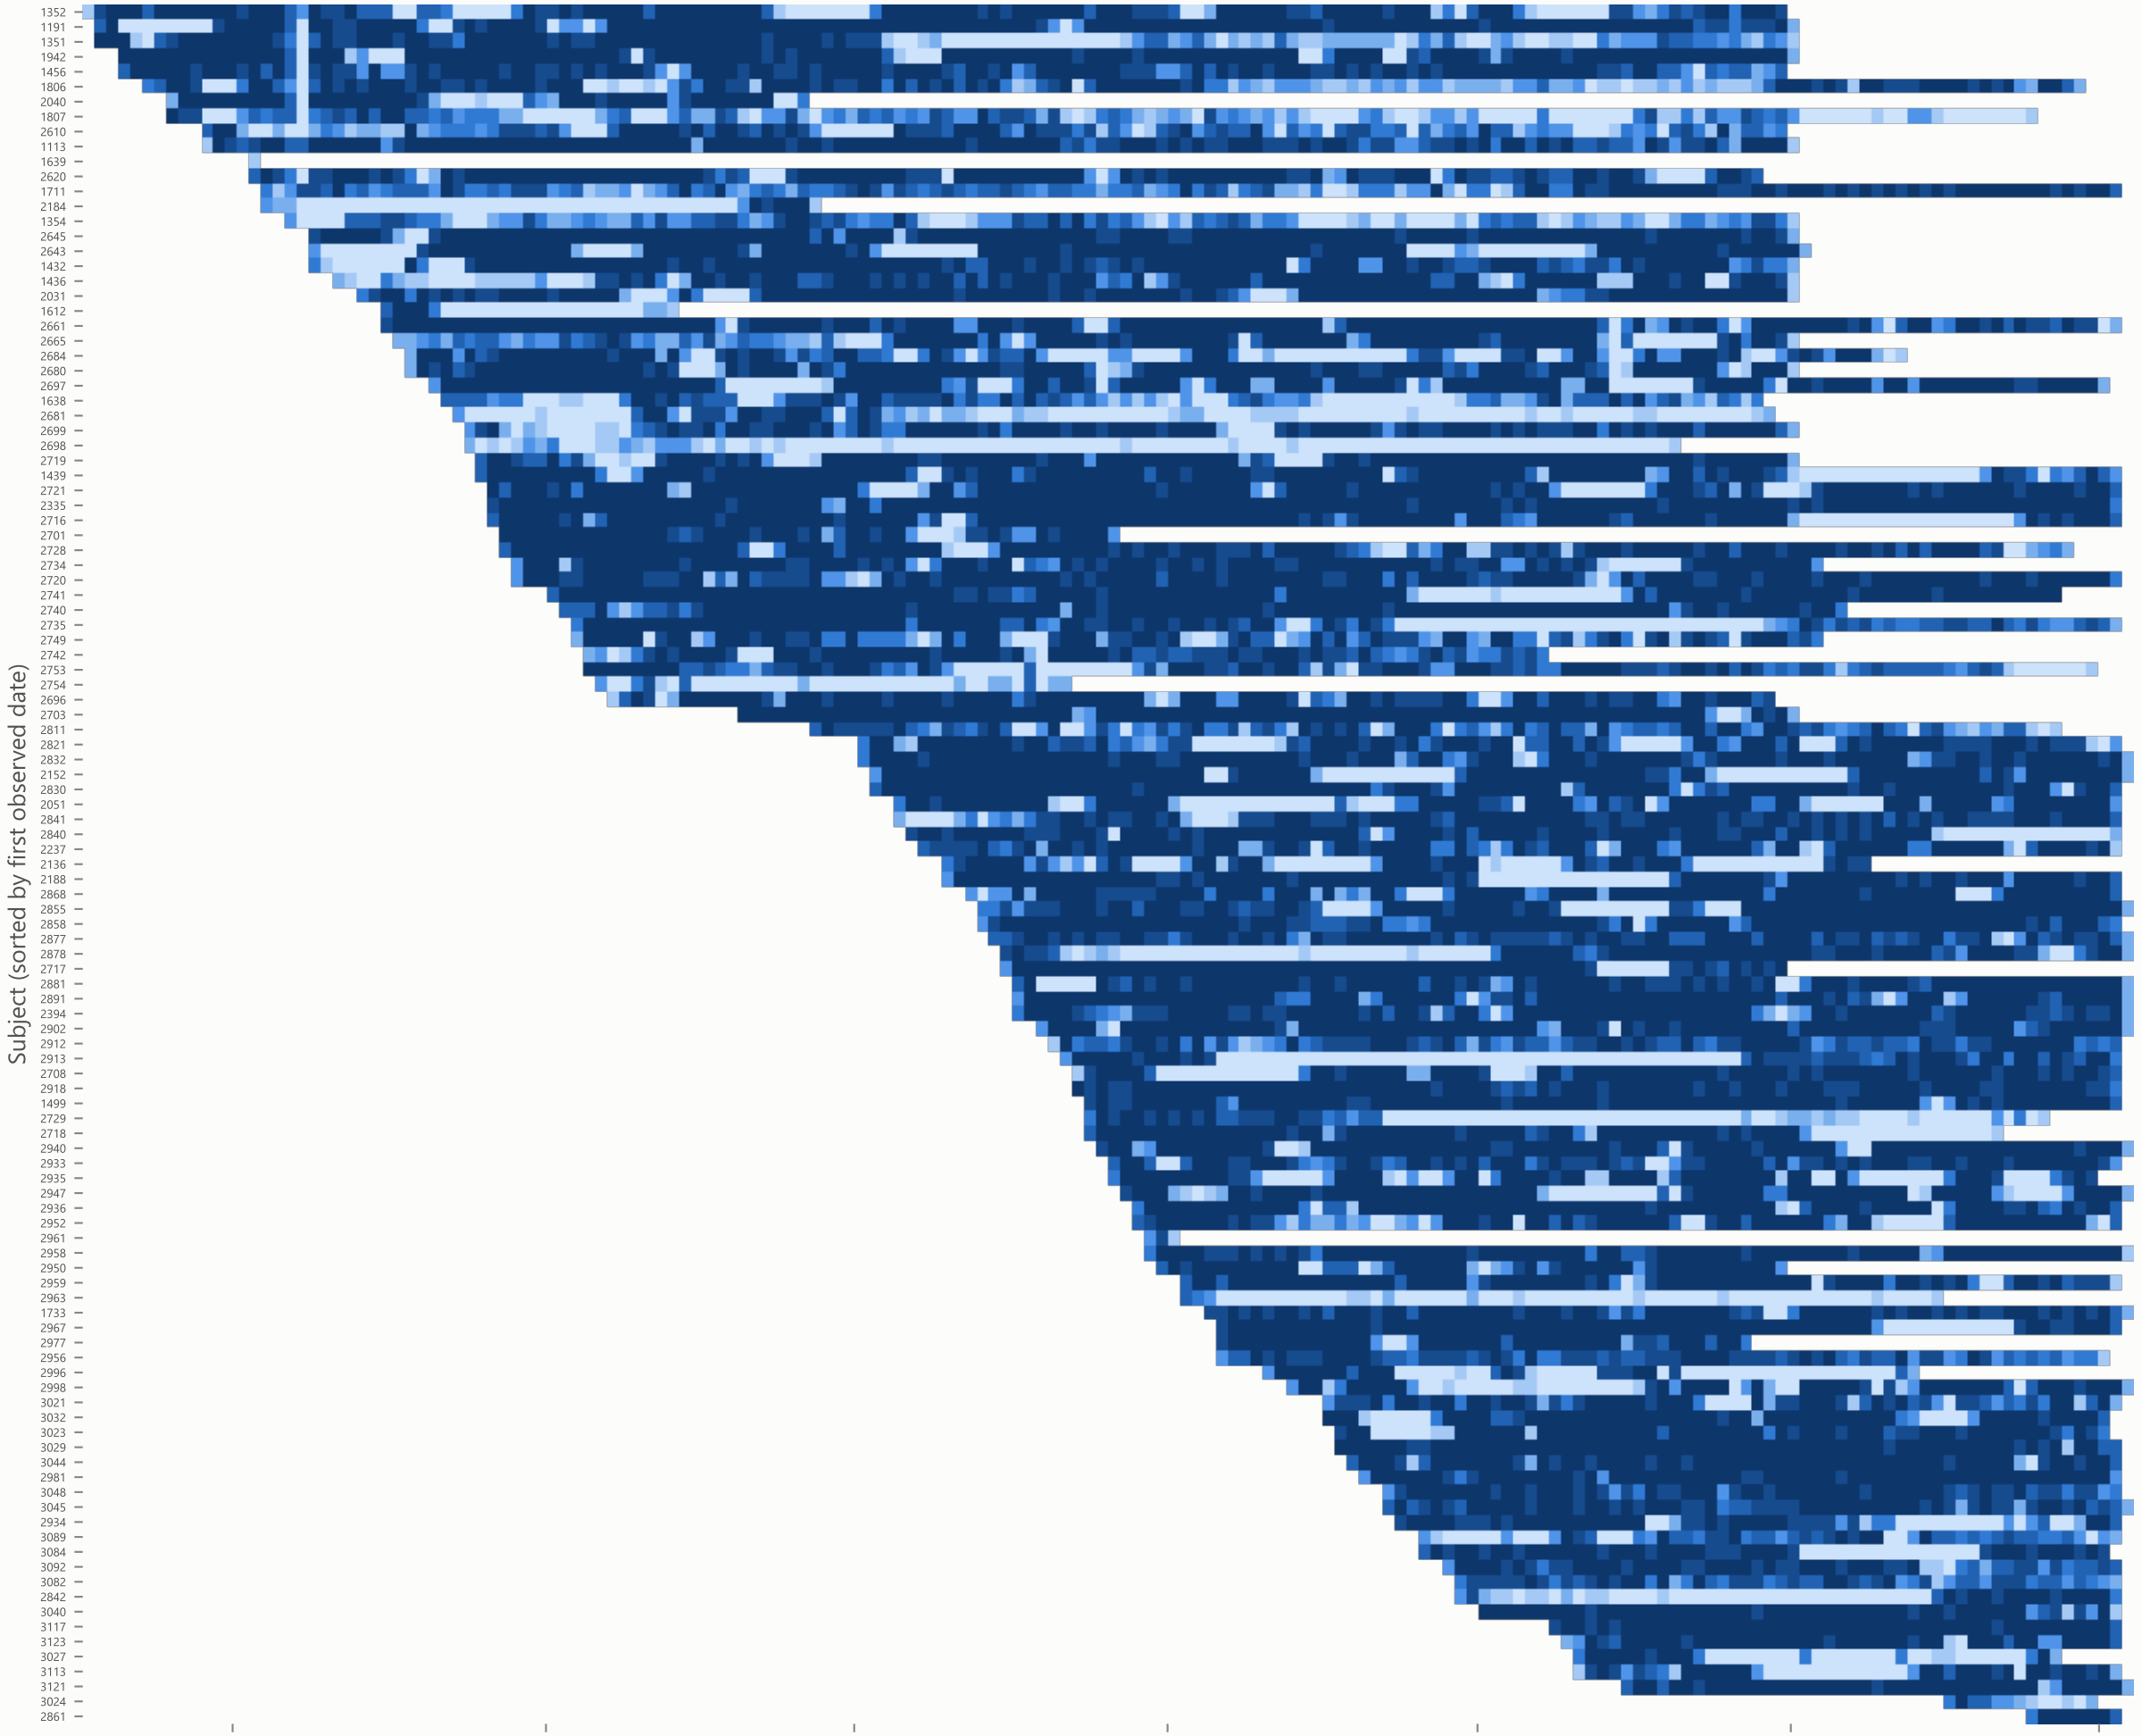

Subjects contributing data each month

Same scale on every panel. Each line stops at the stream's last month of data.

Watch sleep: coverage over time

Each row is a subject, each column a week. Darker = more days of data that week. Blank = before first or after last observed date.

Watch steps: coverage over time

Each row is a subject, each column a week. Darker = more days of data that week. Blank = before first or after last observed date.

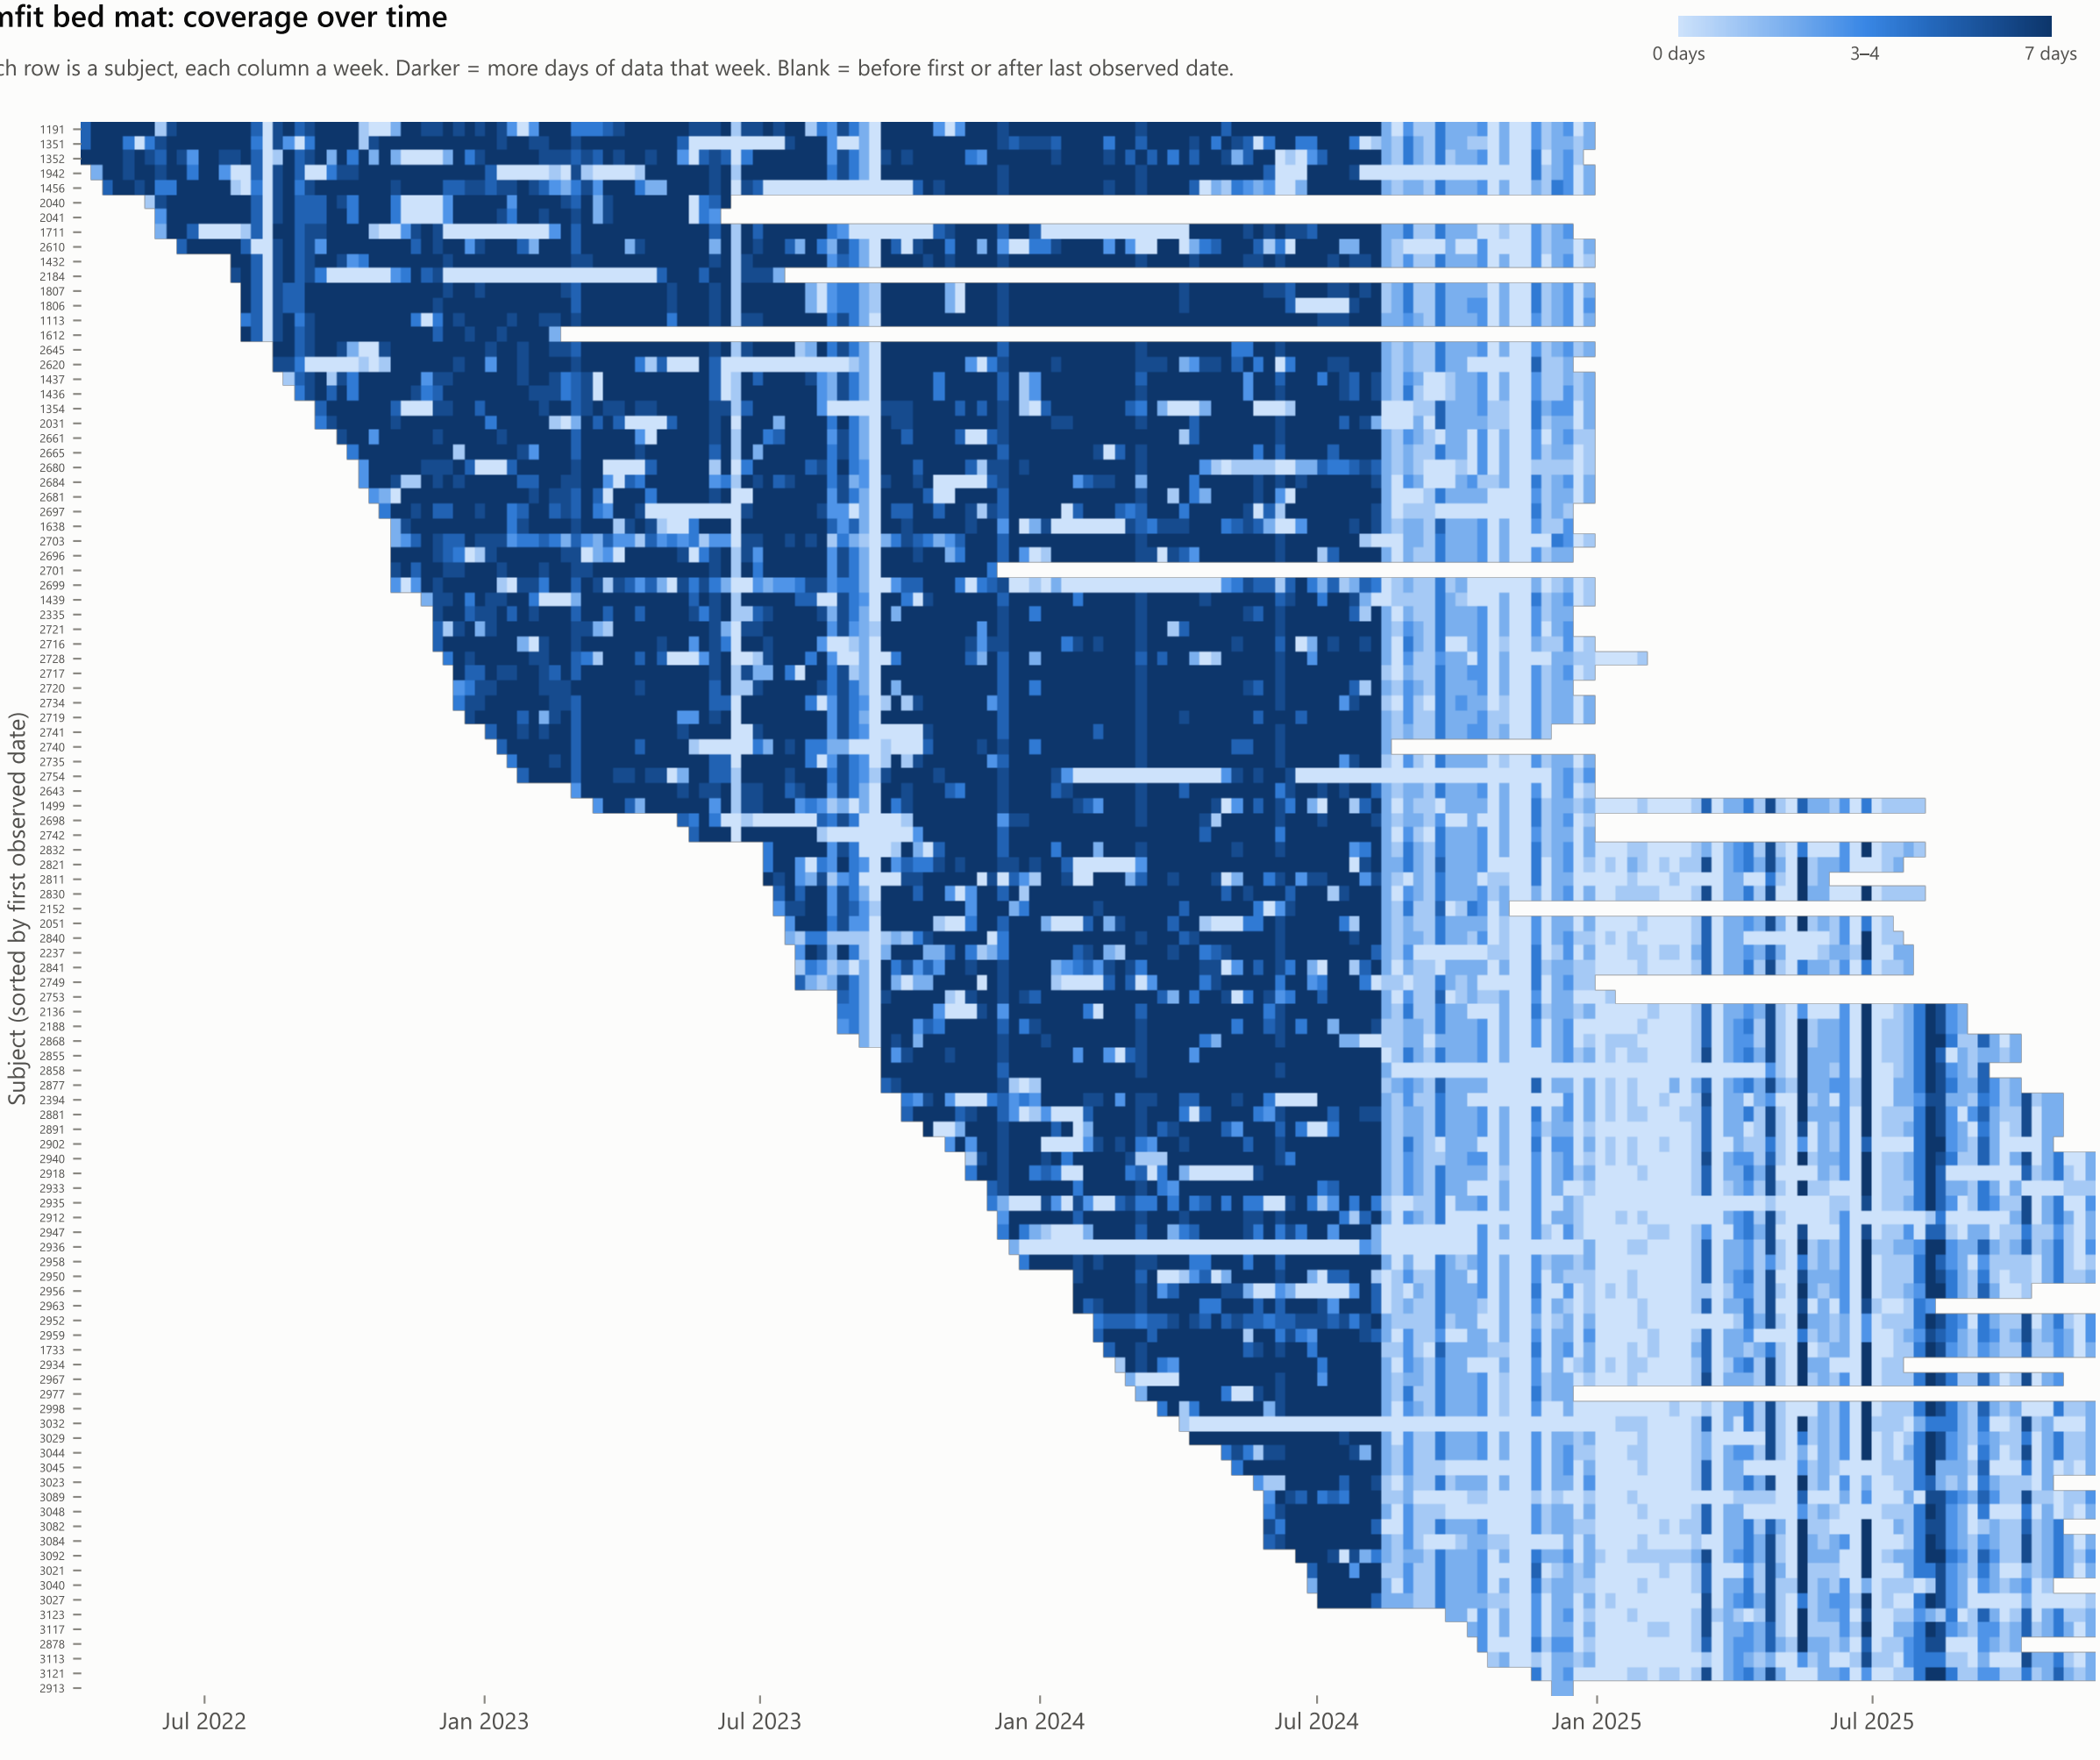

0 days 3–4 7 days

Subject (sorted by first observed date)

Jul 2022 Jan 2023 Jul 2023 Jan 2024 Jul 2024 Jan 2025 Jul 2025

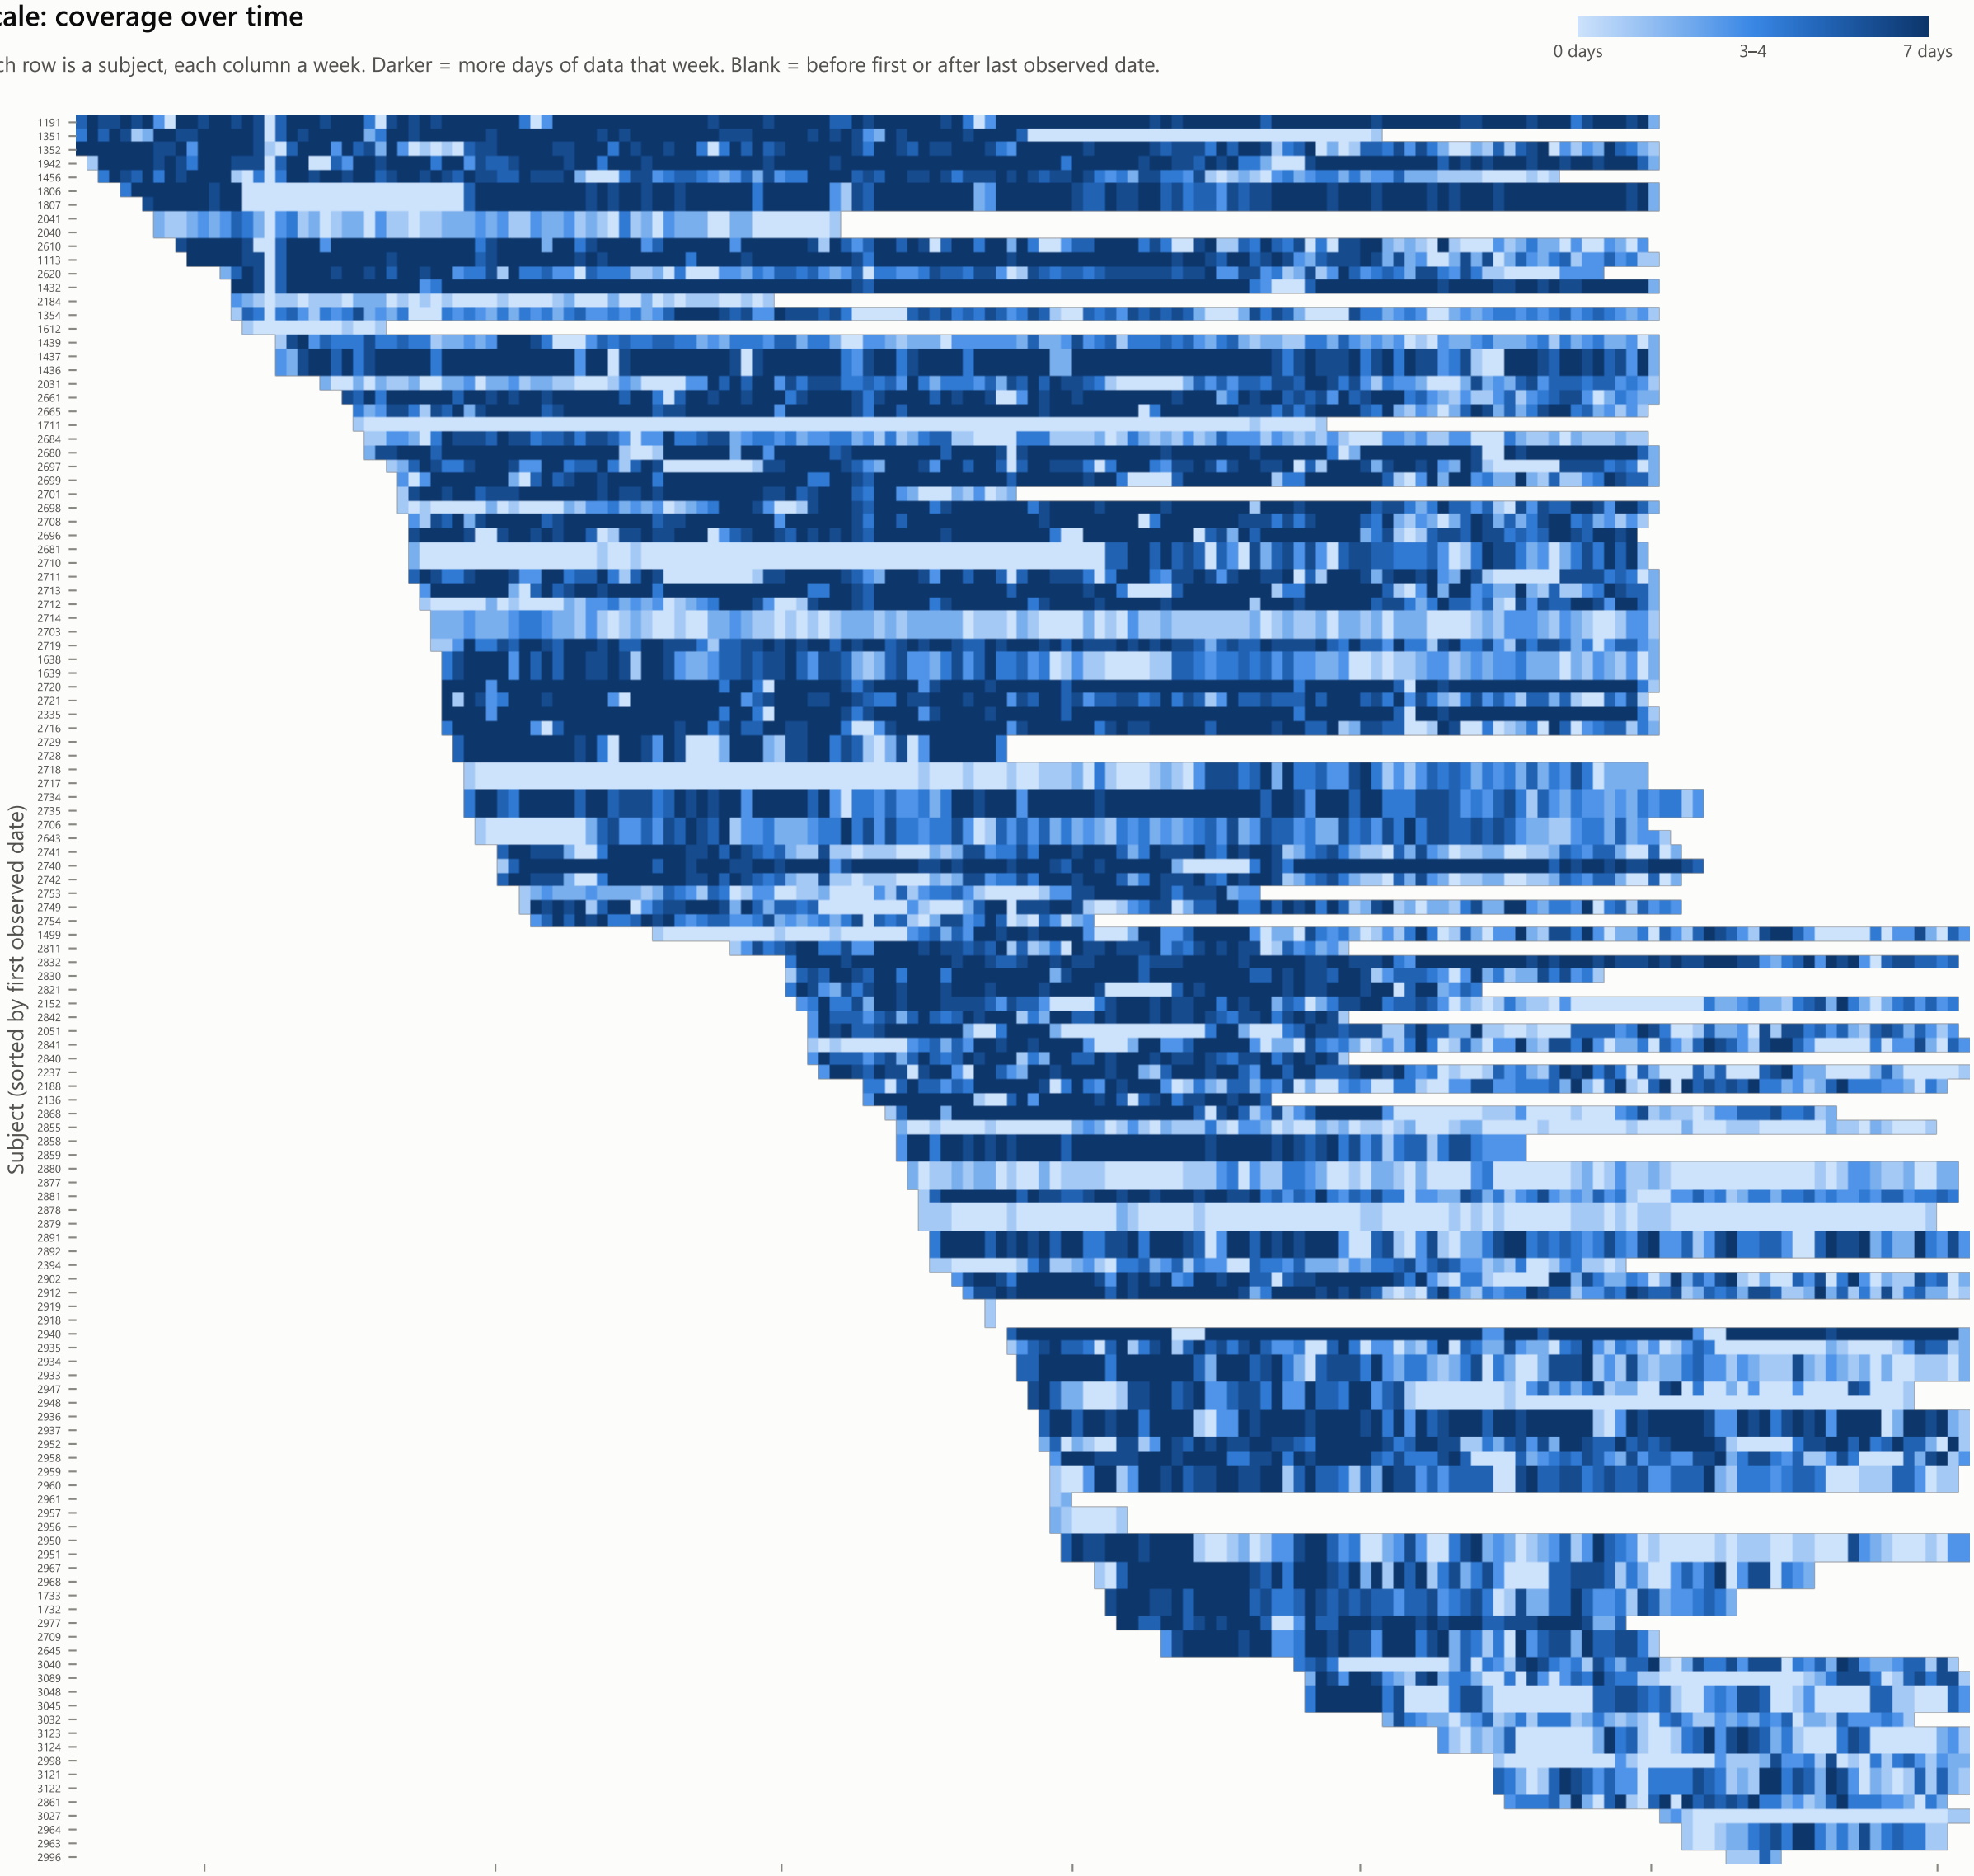

Emfit bed mat: coverage over time

Each row is a subject, each column a week. Darker = more days of data that week. Blank = before first or after last observed date.

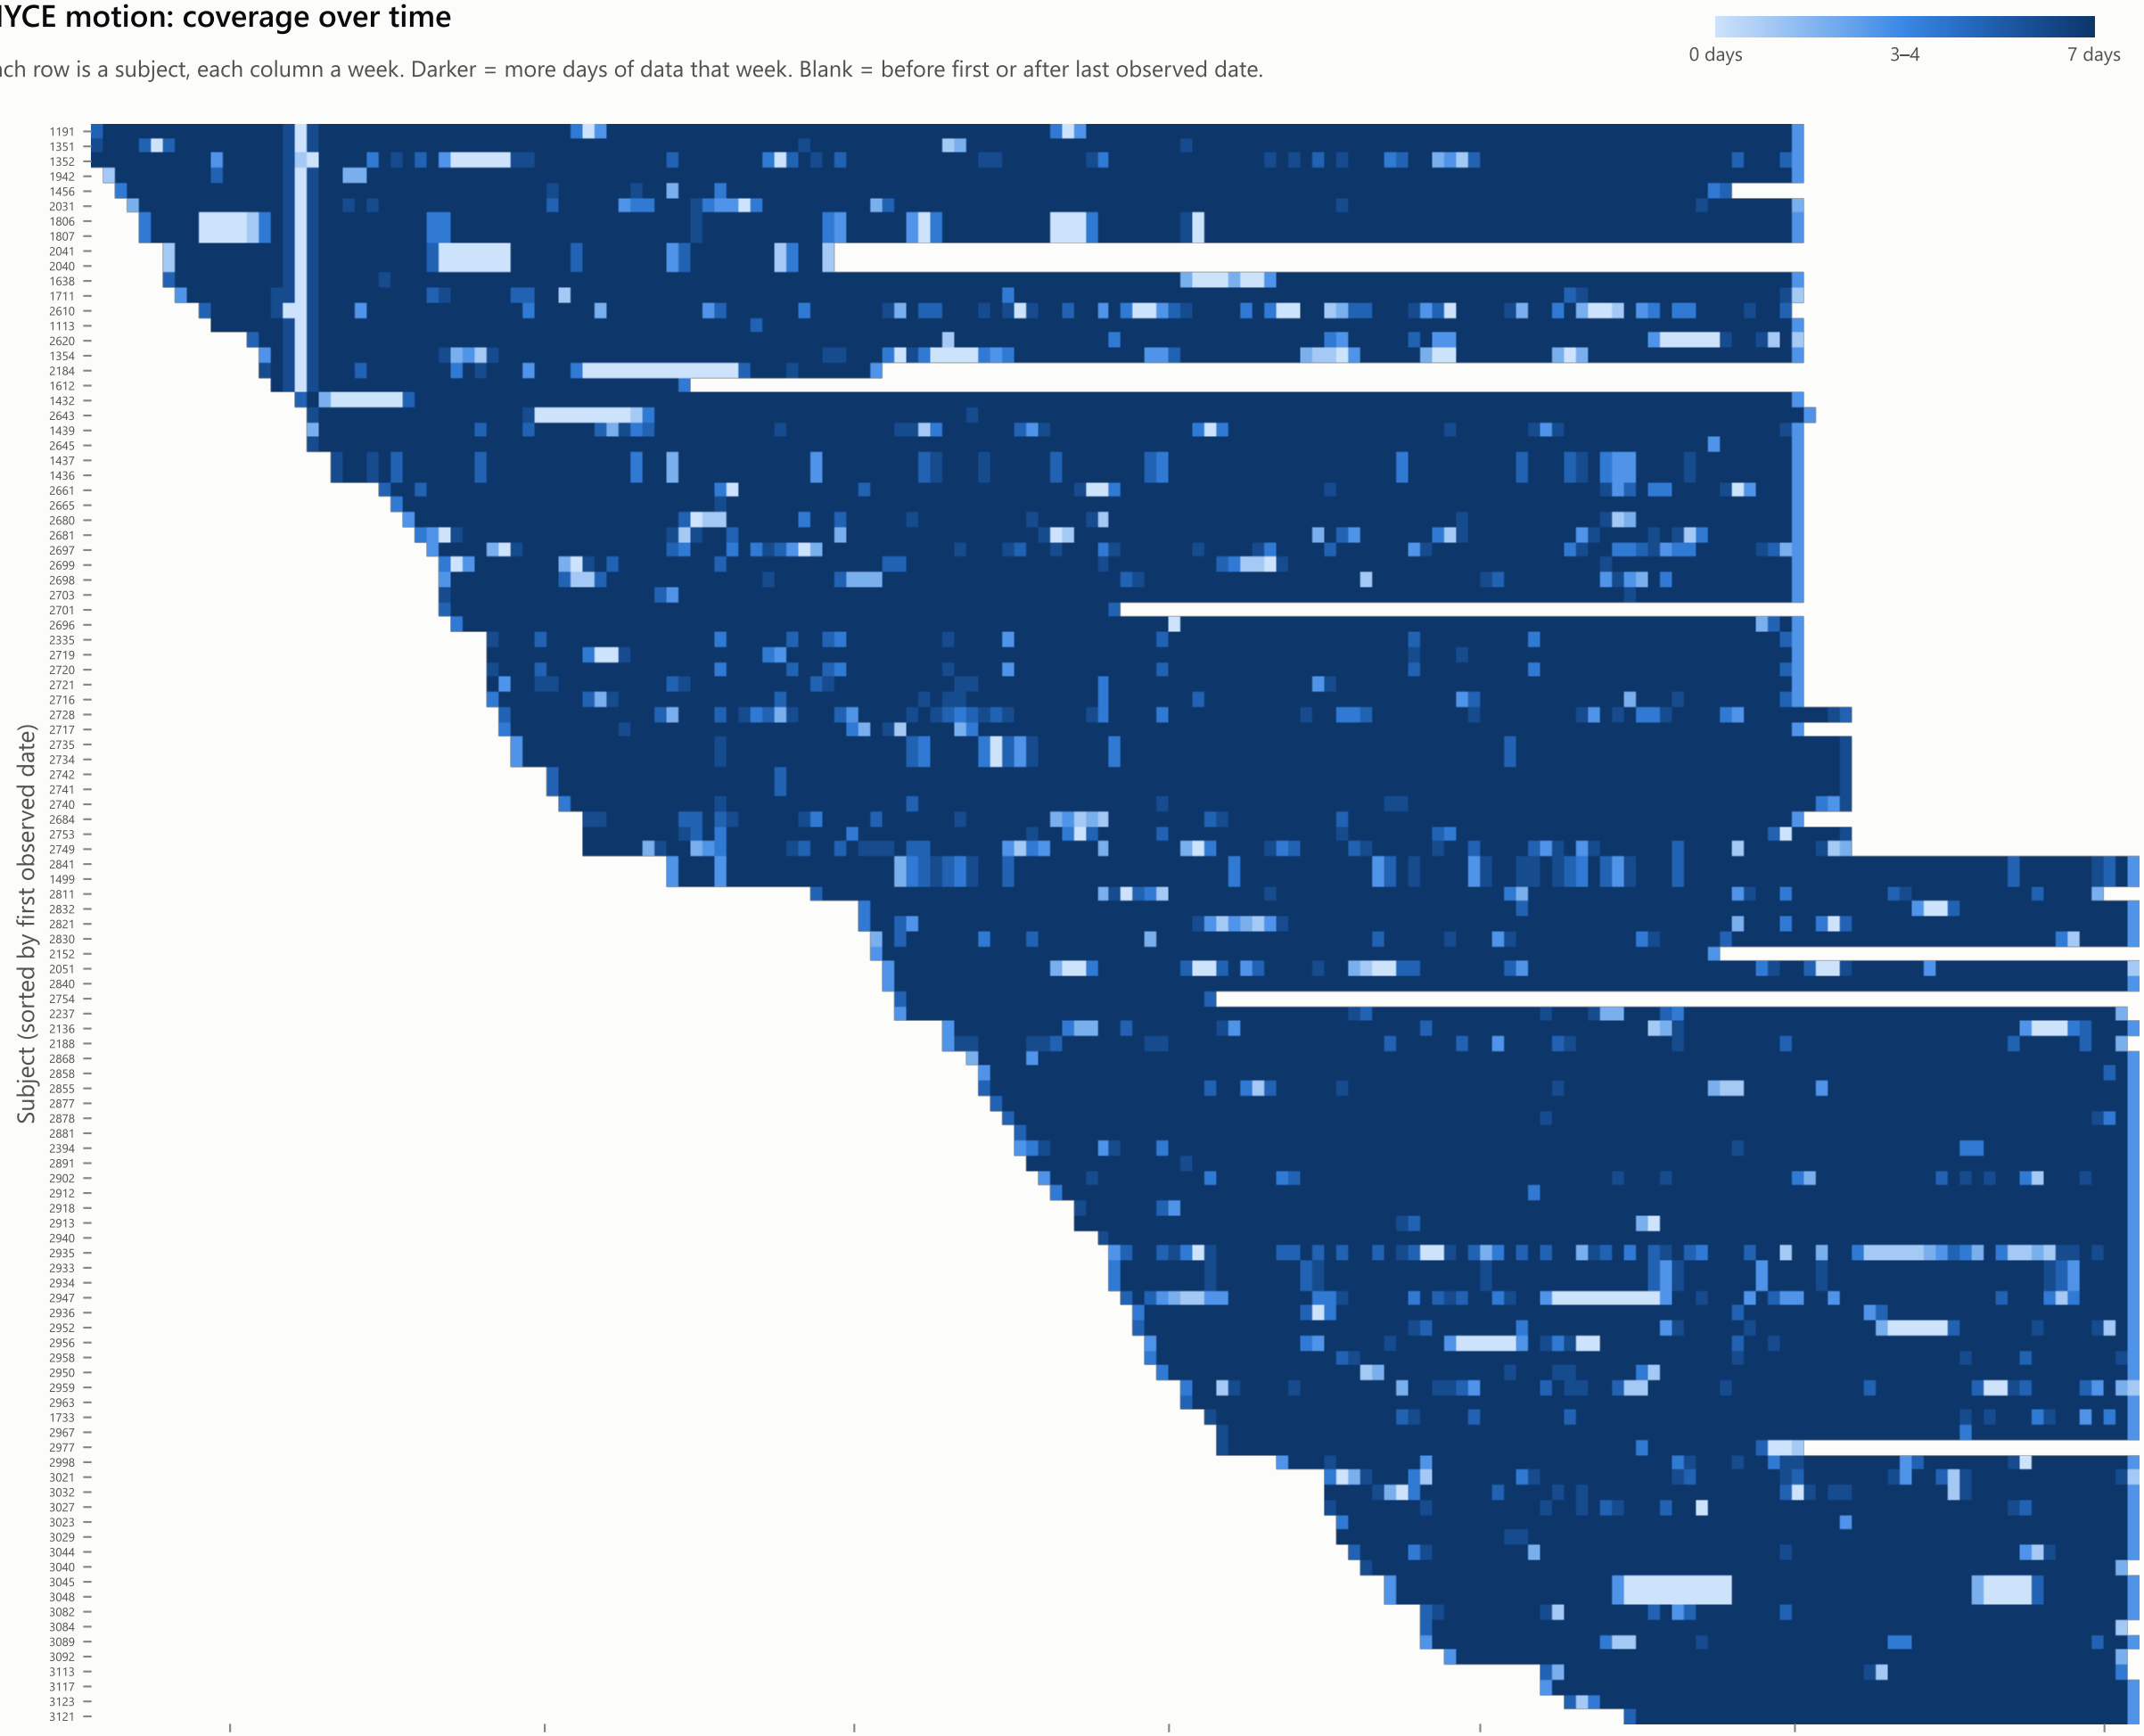

Scale: coverage over time

Each row is a subject, each column a week. Darker = more days of data that week. Blank = before first or after last observed date.

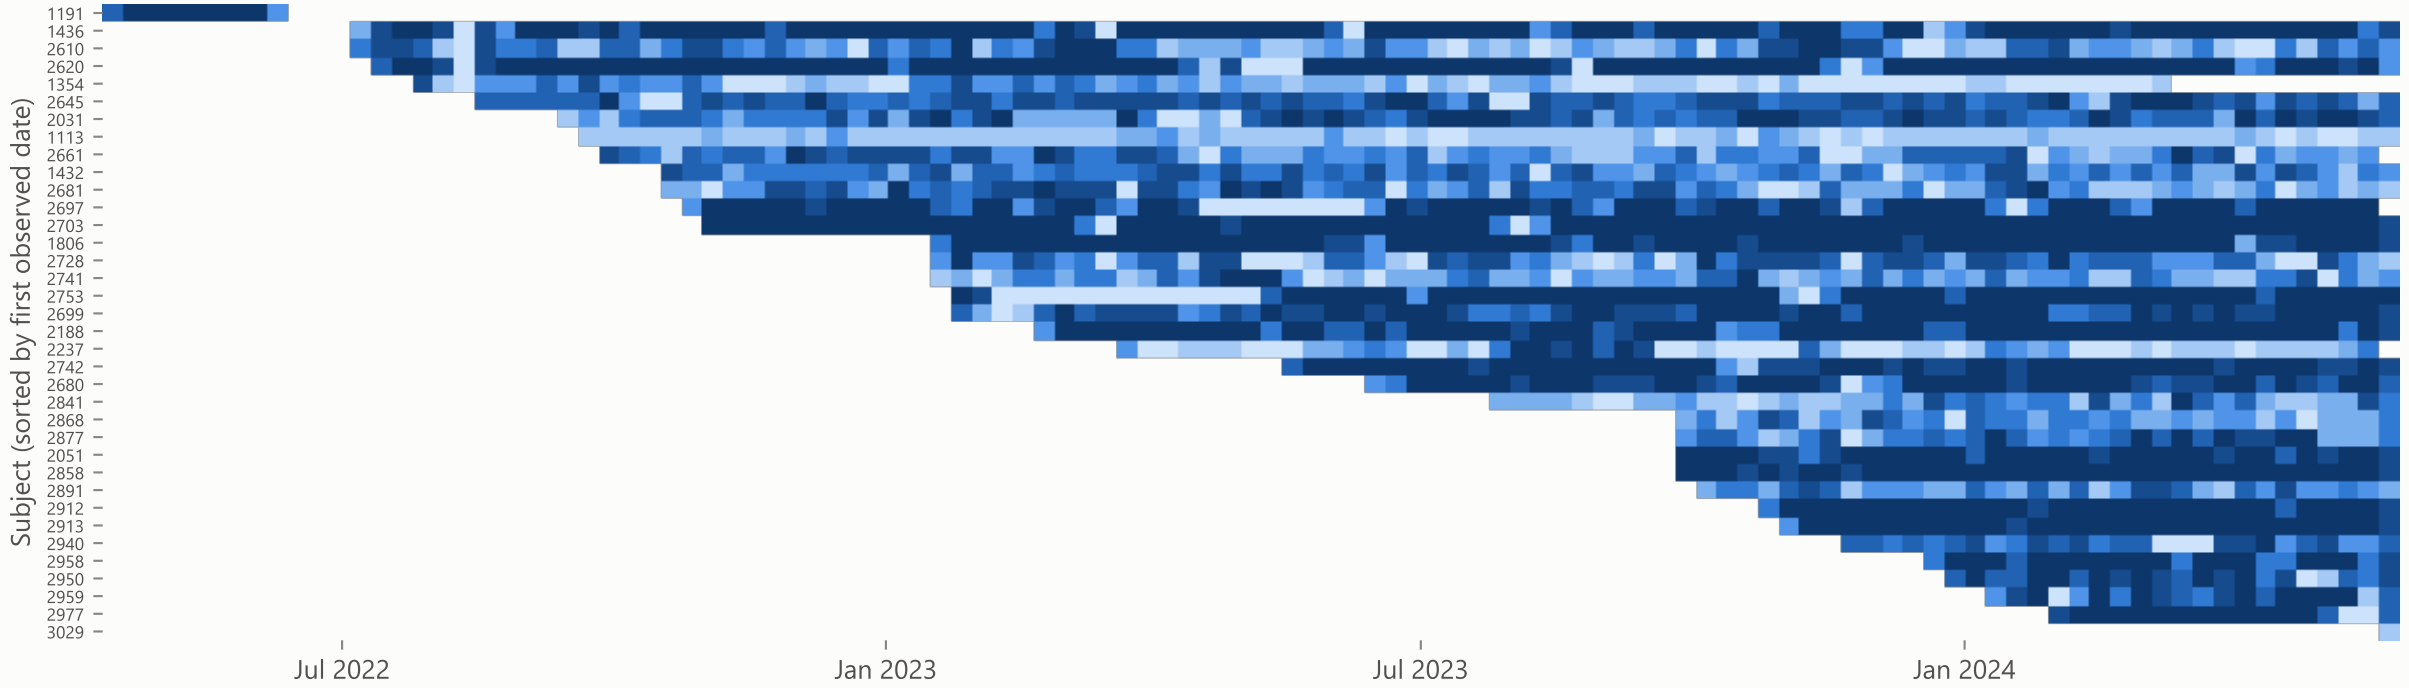

NYCE motion: coverage over time

Each row is a subject, each column a week. Darker = more days of data that week. Blank = before first or after last observed date.

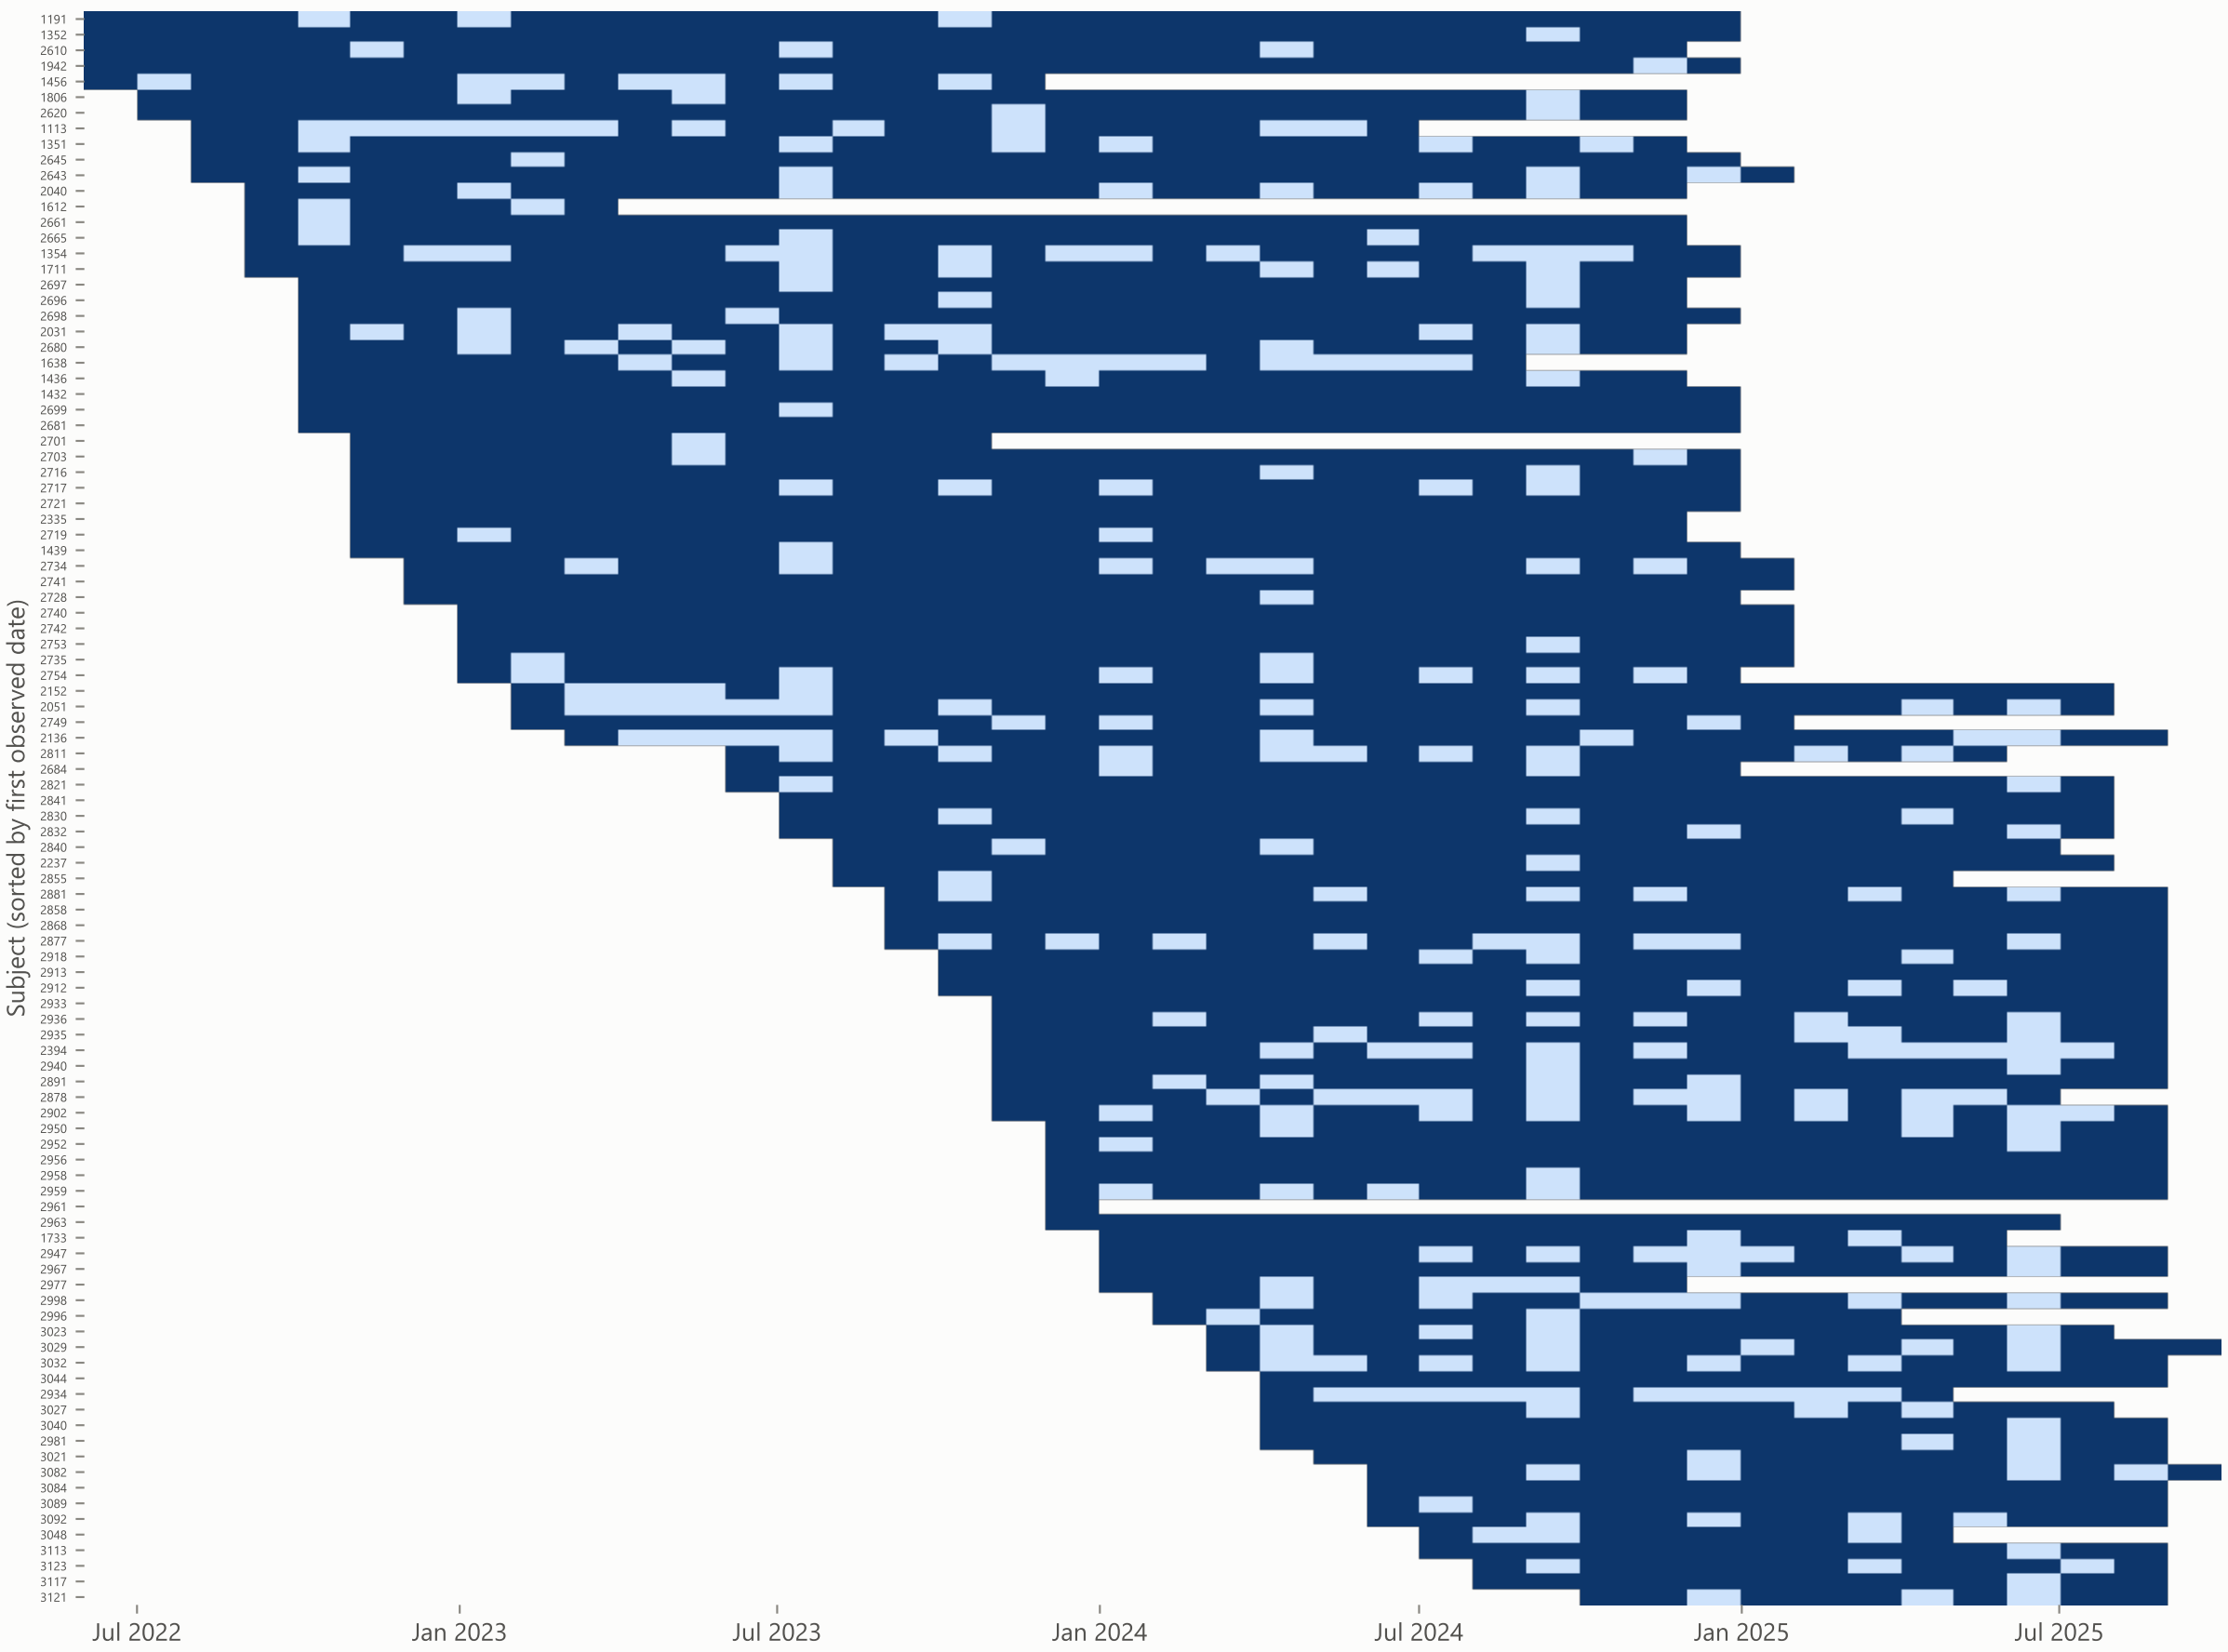

Worktime: coverage over time

Each row is a subject, each column a week. Darker = more days of data that week. Blank = before first or after last observed date.

SMART (monthly): coverage over time

Each row is a subject, each column a month. Dark = a finished survey that month. Blank = before first or after last observed date.

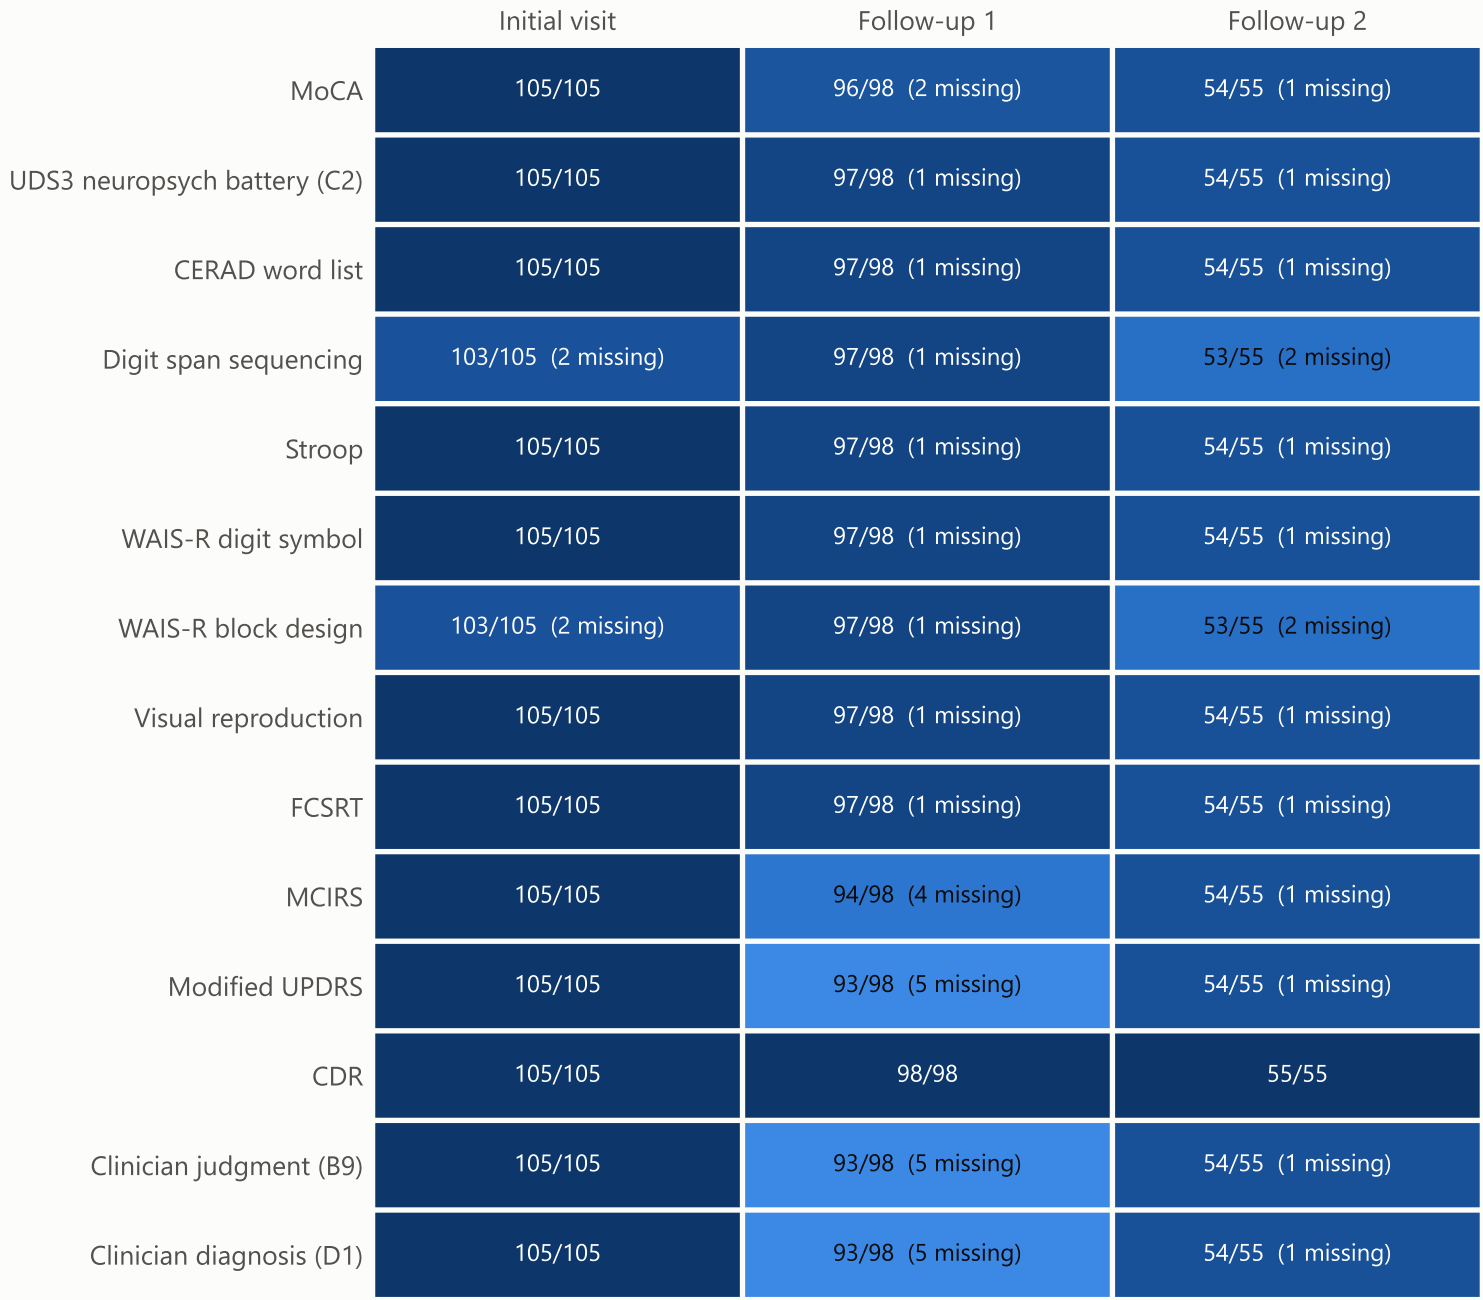

HUF (weekly): coverage over time

Each row is a subject, each column a week. Dark = a finished survey that week. Blank = before first or after last observed date.

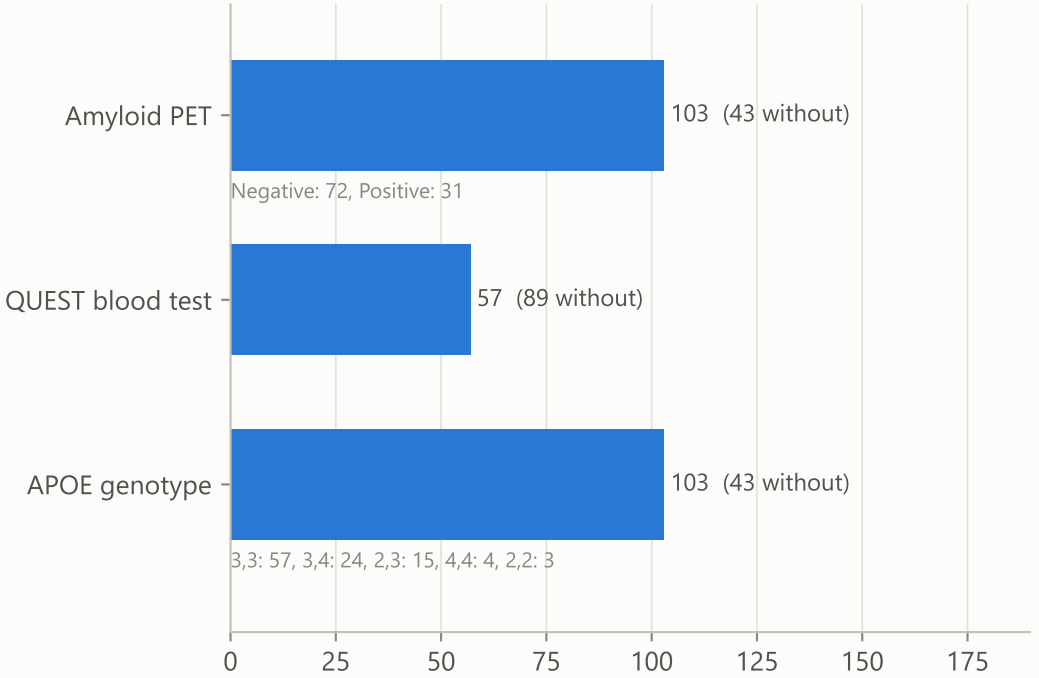

Yearly clinical assessments by visit

Subjects with the assessment / subjects who attended that visit. Lighter = more missing.

One-time clinical measures

Subjects with each measure, out of 146

Yearly visits per subject

Subjects with no visit have none of the yearly assessments
